LeetCode Profile

EDUCATION

University of Delhi, Faculty of Technology

September 2023 – July 2027

Bachelor of Technology in Electronics and Communication Engineering

CGPA: 7.3/10.0

Minor in Artificial Intelligence and Machine Learning

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript

Web Technologies: HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap

Machine Learning & AI: Neural Networks, Data Analytics

Developer Tools: Git, GitHub

Problem Solving: Data Structures, Algorithms, LeetCode (Active), Competitive Programming

PROJECTS

MedieGenie - AI-Powered Disease Prediction System | Python, Machine Learning

2025

- Developed a machine learning-based disease prediction system for symptom analysis and health assessment
- Implemented neural networks for medical pattern recognition on datasets exceeding 10,000 records
- Designed a real-time, user-friendly interface to improve accessibility of diagnostic predictions

devNest - College Community Platform | React.js, Express.js, MongoDB

2025

- Built a full-stack college platform enabling student collaboration, events, and resource sharing
- Designed RESTful APIs using Express.js and MongoDB to handle daily application traffic
- Implemented a responsive React.js frontend with Tailwind CSS for cross-device compatibility
- Integrated authentication and role-based access control for secure user management

Movies Recommendation Engine | Python, Machine Learning, Data Science

2024

- Developed a content-based recommendation system using collaborative filtering techniques
- Analyzed and processed a dataset of over 50,000 movies using similarity and ranking metrics

ACHIEVEMENTS & CERTIFICATIONS

- Institute Rank (GeeksforGeeks):** Ranked **5th** among all students of Faculty of Technology, University of Delhi based on coding score and problem-solving performance
- LeetCode Contest Rating:** Achieved a contest rating of **1456**
- Problem Solving Excellence:** Active LeetCode contributor solving algorithmic problems across various difficulty levels
- TCS iON Certified:** Master Data Management - Professional certification in data governance and management
- Programming with Generative AI:** Certified in leveraging generative AI technologies for problem-solving

ADDITIONAL INFORMATION

Interests: Open Source Contribution, Competitive Programming, AI/ML Research, Web Development

Soft Skills: Team Collaboration, Problem-Solving, Communication, Project Management, Adaptability

Languages: English (Fluent), Hindi (Native)
